best for planning
Basic Presentation
Agenda

1. Basics
2. Methodology
3. People
4. Markets
5. Media
6. Future Prospects, Evaluation and Contact
BASICS
Information is the Key!

Facts are essential for complex decision making, best for planning has them.
Interlink Data in a meaningful Way

Good reasons for best for planning

MEDIA CONVERGENCE

b4p is the first market media study that allows to plan with media convergence.

b4p provides all necessary performance data and key figures to make efficient media investments.

30,121 surveyed consumers
German-speaking resident population over 14 years of age in Germany
Representative for 70.09 million people
MARKETS

b4p explains markets and reveals market trends. Apart from covering all advertising-relevant markets, b4p also enables detailed analyses in a number of sectors due to its tremendously high number of cases.
Interlink Data in a Meaningful Way

Good reasons for best for planning

MEDIA

b4p makes media transparent.

For the first time in the history of market media surveys, the use of online and mobile websites was not only determined by interviews but was also technically measured.

179 magazine titles
59 booking units of daily newspapers
811 websites
373 mobile offers
184 apps
10 TV stations
radio
poster
cinema

Cross media brand reach & combinations
Interlink Data in a Meaningful Way

Good reasons for best for planning

PEOPLE

b4p converts people into target groups.

The survey pinpoints everything that used to disappear behind hard numbers of demographic data: interests, motivations, attitudes and needs.

144 attitudes
10 changes in life
60 leisure activities
18 aspects of life
27 target group models
10 future prospects
2

METHODOLOGY
Multi-Source Approach

b4p provides outstanding quality

CAPI/CASI
(Computer Assisted Personal Interview)
(Computer Assisted Self Interview)

Demographic characteristics, interest in information, media usage

SAB
(self-completion questionnaire)

Use of product, brand usage and loyalty, acquisition intention, availability in the household, attitudes to markets etc.

Online-survey

Significant contents from the CAPI/CASI, particularly media surveys and socio-demographics

Technical measurement

Tracking of stationary and mobile media use

Survey
(Face-to-Face Inhome)
n = 30,121

Online parallel wave
n = 10,231
## Methodology

First-class quality standards

PEOPLE
## People

### Demographics

#### Interviewee
- Age
- Sex
- Nationality
- Religious affiliation
- Marital status
- Body mass index, height, weight

#### Household
- Household size
- Main income earner
- Household management
- Children/grandchildren in household
- Family members in need of care
- Net household income
- Real disposable income

#### Residential area
- Size of village, town or city
- Nielsen areas
- Nielsen metropolitan areas
- Government districts
- Federal states
- Urban/Administrative district

#### Life situation
- Stages of life
- Life cycles

#### Occupation
- School-leaving qualification/occupational training
- Occupation
- Professional status
- Personal income
- Commercial sector

#### Mobility
- Away from home
- Use of transportation
- Public transport
- Commuting
Demographic Target Groups

b4p facilitates various target group and life style analyses

- Social Grades (ABCD)
- Socio-Economic Allocation
- Phases/Cycles of Life
- Personicx™ Typology
- microm Typology
Interests, Needs and Motivations Change

b4p takes up social developments and current trends

- Compact or multifunction kitchen machines
- Sleeping pills and tranquilizers
- Dog and cat food
- New statement on change
- Future prospects/changes in society
- Interest in information and product information to renewable energy
- Statement on internet/social media
- Statement on the topic of mobile networks
- Care of babies/infants
- Time of vacation planning/booking
- Statement on investments
  …and much more

New in b4p 2017
Psychographic Characteristics

What’s behind the demographics?

**Statements on Change**
- I am about to change jobs
- I will become self-employed
- I will marry
- I will emigrate
- ...

10 Items

**Leisure**
- Visiting stadium association football matches
- Pets
- Cycling, Mountain biking
- Reading magazines
- ...

60 Items

**Aspects of life**
- Large circles of friends
- Personal success
- Healthy environment
- Individuality
- Fun and joy
- ...

18 Items

**Spheres of Life**
- Luxury makes life better
- I try to stay fit by doing sports regularly
- I gladly take on responsibility
- ...

42 Items
Psychographic Target Groups

b4p reveals what’s behind the demographics

+ SIGMA-Milieus®
+ Sinus-Milieus®
+ Limbic®-Types
+ Personality Factors
+ Interest Horizons
+ The Lohas (Lifestyle of Health and Sustainability)
+ The New Alphas
4 MARKETS
Markets and Market Trends

b4p represents all markets relevant for advertising…

**Consumer Goods**
- Food
- Cosmetics
- Health
  - Frequency of usage
  - Purchase
  - Usage of brands

**Services**
- Finance and Insurance
- Retailing
- Travelling
  - Available/concluded in household
  - Purchase intention
  - Provider preference
  - Place of purchase

**Durable Goods**
- Home and Living
- Fashion
- Consumer Electronics
- Car and Mobility
  - Available in household/personal ownership
  - Purchase intention
  - Brand ownership
Comprehensive Features

… and uncovers consumer behaviour in Germany.

### Purchasing Decisions
- Tablets
- Pay TV subscription
- Second car in the household
- Planning/booking holiday trips
- Financial investment

21 Items

### Statements
1. I choose regional products as far as possible
2. I read about fashion news in magazines
3. A car must have character, it should not be perceived as boring and ordinary

96 Items

### Interest in Product Information
- Decorative cosmetics
- Bags, travel bags, leather goods
- Apps/applications for mobile phones
- Furniture and furnishing
- Short trips

44 Items

### Role as Advisor
- Consumer electronics
- Fashion
- Cosmetics
- Food

14 Items

### Brand/Price Awareness
- Non-alcoholic beverages
- Confectionery, snack items
- Perfumes/scents/eau de toilette/aftershave
- Mobile phones, smartphones
- Household appliances

57 Items
Representation of Brands

Important basis for many analyses

Diversity and relevance for planning are the most important criteria for market descriptions. Brands were included depending on their size and relevance for advertising:

- All big-players of every market
- Minimum basis (number of cases) for designation depending on the market, generally 1% or 300 cases
- Advertising brands preferred
- Primarily umbrella brands, sub brands only if they are perceived as independent by the interviewee
Markets and Brands

Annual updates of brands

New brands in…
Mineral/Bottled water
Breakfast cereals
Mobile provider
Mobile Phone/Smartphone
Food processors
Detergents
Airlines
Fast food restaurants/Coffee Shops
Places of purchase - Food
… and many more
Market-Based Target Group Models

Who is the consumer? b4p provides answers.

- **Brand Orientation**
  - Coca-Cola zero
  - MICHAEL KORS
  - vodafone
  - Emirates
  - Samsung
  - Tamaris

- **Brand Loyalty**
  - Brand
  - Loyalty

- **Smart Shopper**

- **Sector Typologies**

- **Gambling**

- **Luxury affinity**

10 Typos
**Enquiries**

How many different brands does a target group use in a specific product sector?

How many brands are used in a product sector on average?

How many other brands do consumers use in the same product sector, i.e. how loyal are they to their brand?

**Calculation of „brand loyalty“**

The number of brands used is calculated for every product sector and for every interviewee.

**Presentation of „brand loyalty“**

- Average number of brands used in total (loyalty in total)
- Average number of brands used by every individual target group
- Analysis in categories for the use of brands (number of consumers who use 1-3 or 4-5 etc. other brands)
Construct type Smart Shopper

**Definition Smart Shopper**

Hybrid consumers who attach importance to the brand as well as to the price: „I attach importance to the price as well as the brand“

No bargain hunters (looking for offers in the lowest price segment)

**Compilation**

Compilation based on 57 market related queries about price/brand orientation by a sum scale of the respective occurrence “I attach importance to the price as well as the brand“

**Assessment**

- **Top 10**: upper 10 per cent of this scale (affirmation in at least 37 of 57 instances)
- **Top 20**: upper 20 per cent of this scale (affirmation in at least 30 of 57 instances)
Sector Typologies

- Finance
- Health
- Living
- Travelling
- Fashion Women
- Fashion Men
- Beauty Woman
- Beauty Men
- Food
- Car & Mobility
Media in b4p 2017

- 179 Magazines, Reader circle
- 59 Booking units of daily newspapers
- Posters
- 811 Websites, 602 Booking units
- 373 Mobile Sites/MEWs
- 184 Apps
- Cinema
- Radio
- 10 TV stations
### Representation Requirements

Print representation is based on value determining studies

<table>
<thead>
<tr>
<th>Representation requirements for print media</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Magazines suitable for ma (Mediaanalysis)</strong></td>
</tr>
<tr>
<td>• Registration and representation in the ma</td>
</tr>
<tr>
<td>• Adjustment to ma</td>
</tr>
<tr>
<td><strong>Magazines not suitable for ma</strong></td>
</tr>
<tr>
<td>(such as Corporate Publishing)</td>
</tr>
<tr>
<td>• Representation in the AWA and minimum number of cases</td>
</tr>
<tr>
<td>• Adjustment to AWA</td>
</tr>
<tr>
<td><strong>Status as a licensee</strong></td>
</tr>
<tr>
<td><strong>Relevance for the advertising market</strong></td>
</tr>
</tbody>
</table>
Reach Adjustments

Reach is adjusted to established values wherever possible

„ma-World“

- Adjustment to ma
  - Print
  - TV
  - Radio
  - Posters
  - Websites included in ma Internet
  - Cinema

Not „ma-World“

- Adjustment to AWA
  - Free titles, Corporate Publishing
  - Title which are published less often than monthly

- No Adjustment
  - Websites (without representation in ma internet)
  - Mobile use of Smartphone, MEWs
  - Apps

Reach adjustments are up-dated regulary
**Representation of cross media brand reach**

All published components of media brands, as far as they are represented in the survey, are merged into a „cross media brand reach“

**Requirements for the evaluation:**

- Print coverage + additional media type (Online, Mobile, App)
- Perceivable brand image from consumer’s point of view

**Performance data:**

- User per day for daily newspapers
- User per week for daily newspapers and weekly magazines
- User per month for all magazines published at least once a month

**Defined time horizon:**

Brand reach is presented in b4p for a **defined time horizon** (daily, weekly, monthly). In this process, the reach of included brands are converted into the respective time horizon. The standard for the shortest unit of time is the publication frequency of the print media. For print media, the reach of all items which are allocatable to the respective period apply.
Evaluate Overlaps of Media Channels and Total Reach with b4p

**Net reach BILD: 28.73 million**
(time horizon: week)

**Overlapping**
(on weekly basis)

Qualitative Media-Insights enough and to spare

Media use, advertisement, magazines und newspapers as well as…

Media in general

**Media use:**
- I use media primarily to obtain information
- It is important to me to have reliable sources of information
- I use media in particular to relax and unwind
- I try to stay up-to-date by checking news media several times per day...

Advertisement

**Attitudes towards advertisement:**
Advertisements in… (magazines, newspapers, TV etc.)
- … are informative
- … encourage to buy
- … are authentic
- … are entertaining...

**Statements on advertisement:**
- I actually consider ads to be relatively useful
- Product samples, discount tickets or coupons have encouraged me to buy a product at least once...

Magazines & Newspapers

**Thematic interests:**
- Garden and plants
- Food, cooking, recipes
- Partnership
- Stars, celebrities...

**Reading venues:**
- At home
- When in waiting rooms
- At the hairdresser’s
- At work/in the office...
Qualitative Media-Insights enough and to spare

...internet use, social media and second screen

**TV**

Popular TV Genres:
- News
- Entertainment shows
- Quiz shows
- German crime series/thrillers
- Football
- Formula 1
- Reality shows
- Adventure/Action
- Daily Soaps
- Cooking shows

...  

**Internet & Social Media**

Activities:
- Accessing news and other information via media pages
- Sending and receiving emails
- Maintenance of business contacts

Statements:
- I have often reported on the internet about my experience with products and services and written comments for valuation websites or similar websites
- I use social networks when I need to contact someone immediately

...  

**Second Screen**

Internet use while watching TV:
- I mainly use my smartphone or tablet during commercials
- I use these devices to divert myself if the program is temporarily boring.
- I usually use the smartphone or tablet computer when watching TV for things which have something to do with the current program (e.g., look for background information, talk about current program with friends)

...
Media User Typology

- **Mobile networker**: 5%
- **Entertainment-based free timer**: 24%
- **Classic info elite**: 23%
- **Family-oriented selective user**: 19%
- **Entertainment-oriented offliner**: 11%
- **Digital organised Pragmatician**: 6%
- **Continuous info scanner**: 4%
- **Uninterested media grouch**: 8%
**Type 1: Classical info elite (potential: 24%)**
This highly educated, high-income type attaches great importance to in-depth, reliable news from economy, politics and science and primarily relies on proven print publications respectively their online offers. Ownership of tablet computers and smartphones as well as usage of social networks are below average.

**Type 2: Continuous Info-Scanner (potential: 6%)**
They have a high level of formal education and a clear income far above average and they are permanently in contact with some type of media. They seek in-depth information, escape and inspiration several times a day, at any time and anywhere. The Info-Scanners use digital media avidly, almost all of them have tablet computers and smartphones. App usage is far above average. They use social networks keenly and often in job-related context as well. Magazine reading is at an average, but they have a wideranging reading interest. They put a special focus on technologically related topics.

**Type 3: Digital organised Pragmatician (potential: 4%)**
This is the type with the highest income and they are searching for ways to get a quick overview and time-saving support in his perfectly timed everyday life. They know how to take advantage of digital and mobile media in order to achieve this goal. Smartphones and tablet computer belong to their standard equipment and using apps is part of their daily routine. Their usage of print media is above average. They have a wide range of interest with a focus on technologically related topics.

**Type 4: Mobile networker (potential: 11%)**
They are the youngest type and often still in training. Media provide them first and foremost with entertainment, but also with relaxation and escape and serves as a source of information. Social networks is their magic word and there is hardly one of them who does not have a facebook account. They are well-equipped with smartphones, but often do not have enough money to buy tablet computers. They use magazines and TV very selectively.
Type 5: Entertainment-based free timer (potential: 5%)
They seek relaxation and like to be entertained. Their computers are indispensable for this purpose. You will not find a tablet computer in their households (yet). They prefer information to be brief and concise. They appreciate the widely used social networks for facilitating swift communication and being an uncomplicated way of getting to know new people.

Type 6: Entertainment-oriented offliner (potential: 24%)
This is the oldest, mainly female type with low education and low income who favours primarily popular magazines and TV, above all seeking relaxation and entertainment. Online and mobile activities do not play a significant role. There is great interest in celebrities, stories about individual fates and needlework.

Type 7: Family-oriented selective user (potential: 19%)
People of this type display a behaviour of media usage below average with the exception of listening to the radio. They are reserved towards the internet. They are especially interested in reading about creative design and family topics.

Type 8: Uninterested media grouch (potential: 8%)
The poorly educated and low-income media grouch is neither fond of classical nor digital media types. Only an interesting football match will draw him towards the TV screen.
Media User Groups

For initial orientation

Implementation Media User Groups

Media user groups serve to achieve an initial categorization of users within the individual media types. They are divided into four groups representing their use intensity.

The frequency of contact with a media of a particular type, for example with magazines, indicates which of the four groups a user belongs to. The frequency of contact data is summed up and, depending on the amount of the sum, the interviewee will belong to one of the four categories.

The median principle is applied on this process: Consequently the statistic distribution is cut into four parts. The upper, most contact-intensive quarter is referred to as “++”, the lowest, contact-weakest, as “- -“.

(Basis for this division is the distribution of the weighted total random sample or the subpopulations, in which the respective media use can take place in principle.)

How can I reach my target group?

The Media Compass provides quick insights

The Media Compass is a tool to support strategic planning. It provides relevant information for media genres and their subcategories in a single measured value.

Construction method:
Depending on his contact frequency with this media genre, every surveyed consumer is allotted a value between 0 (= no contact) and 100 (= very high number of contacts). The resulting ‘compass figure’ is compared to the respective value of the basic target group.

Interpretation:
The resulting index provides direct information to which media genres or sub categories the target group has a high affinity, and to which it has not.
Insights Media Use

Example Media Compass for “extensive travellers” (overview and in detail)
